School Report.

To the citizens of Dorchester:

In presenting our annual report, it is gratifying to say that our schools for the past year, have been as profitable and successful as those of previous years.

A few pupils seem to show to little regard for regular and punctual attendance, it is annoying to teachers and a hindrance to the best welfare of the school to have pupils habitually tardy and absent. There is not one child in town but what needs every hour of schooling it can get from the time it is six to sixteen years of age, and we trust that parents will in the future try and send their children to school more promptly. It is the duty of parents to send their children to school regularly.

In some cases we have been unfortunate in securing teachers while in others quite the reverse, and our greatest failures have been with those who were highly educated and well recommended, still our good success in the others we think will atone for the failures, and on the whole we feel very well satisfied that so much has been accomplished. It is not only essential that we secure teachers competent to impart book knowledge, but to maintain discipline. None will deny that proper school government is of the very first importance, a most serious question. Does the whole responsibility of securing such government rest wholly on the teacher? Cannot parents do something to promote this end by cooperating with the teachers. At all events let it be a principle that so long as the child is a member of the school, his thorough and uniform obedience to the school authority shall be insisted upon. It is somewhat surprising that some parents take so little interest in the education of their children, that they cannot find time to visit the school. Parents should visit the school and encourage the teacher, and follow the children with their sympathies in their daily tasks.

Our schools are the making of the rising generation for future usefulness. The children in these schools will soon fill our places, and whether with honor or dishonor depends largely on the training we give them, and we respectfully ask the voters of this town to give us more schooling for our children. We need at least twenty-four weeks or more. The last year we have had nineteen weeks, while in years past we have had only fifteen weeks.

Hoping we can prolong the school, year by year, we remain your humble servants,

HERMAN L. POQUETT,
GEO. B. FELLOWS,
EZRA J. GOSS,

School Board.

DIVISION NO. 2.

Spring term of eight weeks was taught by Mr. Levi P. Goss who labored hard for the welfare of the school.

Fall term of eleven weeks was taught by Miss Gertrude L. Toomey of Canaan. Although this was Miss Toomey's first school, she taught one of the best of schools in town. Order was perfect and she labored both early and late for the advancement of her scholars.

DIVISION NO. 3.

This was formerly a union district and the school is now conducted by the town of Groton. The pupils of this town, in this division are provided for by paying a proportional part of the expense of the school in this district.

DIVISION NO. 4.

The service of Miss Margie D. Twombly of Campton Village was secured to teach the spring term; this was her first experience in teaching. She labored most earnestly for the good of her pupils and gave general satisfaction; but owing to George Dow disturbing the school, we closed the school at the end of six weeks.

Fall term of eleven weeks was taught by Miss May L. Clough of Northfield, Mass. This was her first experience in teaching. Miss Clough was one who devoted herself faithfully to the interest of the pupils entrusted to her care, thereby giving general satisfaction.

DIVISION NO. 8.

There is no school house in this division, the school is held in the house of Mr. Park, he receives his proportion of school money; the teacher is hired by him; he also boards the teachers thereby prolonging the school.

DIVISION NO. 10.

Spring and fall terms were taught by Miss Lillian M. Jewell, of Lyme Centre, who is one of our best teachers. She labored hard and faithfully for her scholars. The examination at the close showed the result of interest and hard labor on the part of both pupils and teacher.

NORTH DORCHESTER DIVISION NO. 13.

Spring term of eight weeks was taught by Miss Helen M. Jewell. In visiting this school we found Miss Jewell doing her duty and trying to please both pupils and parents.

Fall term of eleven weeks, was taught by Miss Jewell, and we are sorry to state that we found said term not up to standard in regard to order, there being numerous complaints rendered us, but in giving our candid opinion we would say that we do not care to make the statement, that we do not consider the pupils entirely blameless.

H. L. POQUETT,
GEO. B. FELLOWS,
EZRA J GOSS,

School Board.
